## Chomko Describes His Voting Plans if Elected

Sam Chomko, Madison Third Ward alderman candidate, in a statement late last week alleged that "election lugs" are being levered against city employees and said he would vote as alderman to open city and bridge records to the public, to end "payroll padding" and to extend bid competition to all types of supplies and services.

A precinct committeeman in the neighborhood for the past 14 years, Chomko said he is fighting "one-man rule" and opposes "city officials holding court on any of our citizens who oppose them and then condemning these citizens to the public."

He said, "I will vote to show the people the large expense and tax burden resulting when part-time employees, including aldermen, are placed under a pension plan. I would show how such pension dues and back pay can create a large debt over a period of 40 years."

Chomko commented that he opposes aldermen having an interest in taverns and said he will seek a uniform tavern closing law, "constitutional rights" and a merit system for city employees, entirely open meetings, freer issuance of candidate petitions and annexation of fringe areas.

He added that he would strive to eliminate "10,000 budgeted yearly for use of aldermen," political pressure on city employees, any personal use of city employees or equipment and political use of the Firemen's Hall.

**Students in Simultaneous  
Collisions in Madison**

Venice high school students were involved in separate auto accidents at the same time, 8:45 p.m. Friday, in Madison. Michael Lynn Seagoe, 17, of 1314 Oriole street was driving south on State street near Fourth street when his auto was sideswiped by the northbound car of Howard Glover, 46, of 212 Hill street. The left front of each vehicle was damaged.

The other student was John Louis Logan, 19, of 214 Karr street, whose vehicle collided with one driven by William L. Douglas, 63, of 1310 Madison avenue, Madison, in front of the latter's house. Douglas said he was making a right turn into his driveway. There were two passengers in each car but there were no injuries.

## THE BATTLE OF AN INDEPENDENT

Here are some of the questions I have been asked by some of the so-called politicians. Why are you running for Mayor? What political organization is supporting you? Where are your signs? Do you think you can be elected without money? Don't you know you can't win without paid workers? Why, you don't even buy the boys in the taverns a drink.

If they mean, why I am not advertising with billboards, full-page ads, posters, bumper stickers, on radio, T.V., etc., the answer is simple. I do not have that kind of money. This isn't sour grapes, it is the truth. Just to give you an example of the cost of advertising, this ad cost me \$50.90. You have to use your own imagination concerning the cost of the others. Look around you. It is quite evident that a lot of money is being spent in an attempt to elect a Mayor. Then ask yourself the question, "Why?"

As an Alderman for the past 10 years, I believe I have the experience. As a working man, I am familiar with and understand the working man's problems. I have been a member of organized labor for 26 years. Here I am, just an average citizen of Granite City, without a political machine and with very little money for campaigning. Just a burning desire to lead our city out of darkness on to the road of progress. If I am elected, I will be able to work for the majority of the people without the fear of someone putting their hand on my shoulder. I will be under no obligation for political payoffs. To put it frankly, I would not want it any other way.

## MORE ABOUT

### Pattern

(Continued from Page 1.)

time, the opposition slate de-  
clared:

"These payrolls exhibit a  
shameless waste of the taxpay-  
ers' money on the part of in-  
debted incumbents in an effort to retain  
their political prestige and to  
keep in office or elect to public  
office their proteges and hench-  
men."

### 157% Increase

"This was illustrated first in  
1938 when all the present trust-  
ees were running for reelection  
and expenditures jumped by  
leaps and bounds from a total  
for the year of 1935 (which was  
not an election year) of \$115-  
691 until it reached the stagger-  
ing total of \$288,981 for the year  
of 1936."

The brochure went on to say  
that "it was illustrated again in  
the sheriff's primary election of  
1938 when expenditures jumped  
from a total for the year 1937  
(which was not an election  
year) of \$152,067 until it reached  
of \$231,208 for the year of  
1938."

In this instance, the candi-  
dates contended, "\$242,620 in  
this amount was spent during  
the first four months of that  
year or the four months prior to  
the said sheriff's primary elec-  
tion, leaving a balance of \$89,000  
for the remaining eight months.

"This is the year in which the  
present trustees made their ill-  
starred effort to nominate Mr.  
William Knapp, one of their in-  
debted members, as sheriff of  
St. Clair county. The above rec-  
ords again show they spent and  
wasted \$80,000 of your money in  
that election."

### City Election

"It was further illustrated in  
the year 1939, which was the  
East St. Louis city election year,  
when these expenditures increas-  
ed again until they reached a  
total for that year of \$241,872  
— of which \$143,395 was spent  
in the four months preceding  
said city election, leaving a bal-  
ance of \$98,477 for the remain-  
ing eight months," the brochure  
continued.

"This is the year," it said, "in  
which the present trustees also  
made another effort to elect Mr.  
Alvin G. Fields, one of their in-  
debted members, as city com-  
missioner of East St. Louis.  
The records again show they  
spent \$80,000 of your money dur-  
ing that election."

### Private Sale of Bonds

The opposition candidates ac-  
cused the incumbents of increas-  
ing the bonded indebtedness \$2-  
million and selling bonds at  
private sale at interest rates  
higher than those paid by other  
taxing agencies.

It was alleged that the levee  
board charged residents of the  
Lansdowne area a \$100.00 for  
connecting to an outlet sewer  
"already paid for by the tax-  
payers"; charged residents of  
Washington Park \$66.00 for  
connecting to an outlet sewer al-  
ready paid for by the taxpayers;  
and charged residents of Fair-  
mont City \$25,000 for connecting  
to an outlet sewer, but permit-  
ted a packing company to con-  
nect to the same outlet sewer  
for \$200.

While these accusations were  
used as political ammunition,  
they were nevertheless based on  
facts and were presented to the  
public in a manner that gave  
them wide distribution.

Robert Gibson, former Granite City, who at 37 is a member-treasurer of the 1,200,000-member Illinois AFL-CIO, will be guest speaker at a \$100-a-plate dinner at 6:30 p.m. Wednesday at the Rose Bowl. The event will raise funds for the mayor's campaign of Van Dine Cruse. Today's announcement recalled that Gibson, a Chicagoan, headed state Young Democrats served as national Young Democrats treasurer and was one of ten chosen by President Kennedy as delegate to the 1963 NATO International Youth Conference.

## Future Events Planned By K. of C. Council

Several future events were planned by Tri-City Council 1098 of the Knights of Columbus during a regular meeting Thursday night.

The annual K. of C. spelling bee for Quad-City parochial school pupils will be held at 2 p.m. April 11 at the K. of C. home. The winner and runnerup will advance to a county spelling-down to be held in Collinsville. Al Lucash, Catholic activities chairman, announced that the council will hold a Communion Sunday on May 2. The annual K. of C. excursion to Springfield is to be held on April 25, and the annual county May Day parade is to be held on May 2 in Collinsville, with a tentative evening schedule.

The council observed a minute of silent prayer in memory of Henry Pieper, deputy grand knight, who died last week. His official seat was left vacant during the meeting and was draped in black.

Donald Stanton, blood bank chairman, obtained additional blood donors to fill St. Mary's requirements at St. Mary's Hospital in East St. Louis.

A program was conducted by Miss Betty Bagby of Alton, representing the Easter Seal Society, who presented a talk and showed slides.

Al Sanders, grand knight, conducted the meeting which was followed by refreshments.

## Anchorage Residents See Berlin, Cyprus Scenes

Madison Postmaster Harry R. Johnson showed photographic slides of East and West Berlin, including the Berlin wall, Cyprus and the Isle of Rhodes at a meeting of The Anchorage residents Thursday night in the recreation hall of the housing project.

On Wednesday, Johnson will appear before the residents to speak and show slides of the area of Egypt traveled by Moses in going to Mount Sinai, where the Ten Commandments were proclaimed. Mrs. Johnson will show travel souvenirs, including a camel saddle, purses, jewelry, clothing and scarves.

# Opposition for 3 Town Board Posts in Nameoki Township

## Six Seek Auditor Posts in Nameoki Township Election

A six-man bid for three auditors posts will mark the only township election contest in the Nameoki township election Tuesday, April 6, with the offices of assessor, collector and town clerk going to the incumbents without opposition.

Incumbent Town Auditors Herbert Polley, William Schreiber and Robert Strackeljohn, all candidates for re-election, are opposed by Edison Phelps, Keith Hart and Michael Ropac. While the three incumbents are running on an Administration slate, efforts of the three opposing candidates to run together as a ticket was balked by their petition forms did not carry the party heading properly.

Phelps, who is city clerk of Ponton Beach, Hart and Ropac, said they will run as independents on the ballot, but will campaign together.

The posts of assessor, city clerk and collector are sought only by the incumbents. Joseph J. Cohan, John Karlechik and Gene Rotter, respectively. Neither the supervisor or assistant supervisor terms expire this year.

Ballotting places in Nameoki township will be located at Long Lake Fire department for Precinct One, Taylor residence at 1908 Rhodes street for Precinct Two, Tri-City Glass Co., 4500 Wabash avenue for Precinct Three and State Park Community House for Precinct Four.

Joseph J. Cohan, 55, of 2045 Rhodes street, is the only candidate for tax assessor in the Nameoki township election April 6. He is currently the township assessor, completing his fourth term.

Mr. Cohan attended Madison High School and has operated an insurance agency since 1948. He served 20 months in Africa and Italy during world war II, is a charter member of the State Park VFW Post 8826, a member of the Amvets Post 204 in Madison and the Venice-Madison American Legion Post 307.

In response to two questions put to all assessor candidates, (1) Do you think property is being assessed fairly and equitably, and (2) If not, what changes do you propose, Cohan responded:

1. "That is a matter of opinion. It is a broad statement that would take some study."  
2. "I will continue to serve the public to the best of my ability with fair treatment for everyone."

His objective in seeking re-election, Polley said, is "to carry out a program instituted the past four years by the present town board of auditors. This is a long-range program designed to fit the economy of the township. This includes sanitary facilities, drainage, land use, etc. As this program moves forward the assessed valuation of the township will rise and more services can be provided."

Polley is married and has a daughter, Mrs. Roger Withers, and a son, Charles Jeffery.

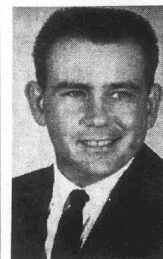

William G. Schreiber

William G. Schreiber, 42, an employee of McDonnell Aircraft Corp., is one of the three incumbents Nameoki township auditors seeking re-election on an administration party slate.

## Dal Maxvill Slaps Two Hits in Florida

Dal Maxvill slapped two singles in three at-bats yesterday to raise his spring training average to .364 (4-for-11) as the St. Louis Cardinals lost 9-8 to the Kansas City Athletics.

The Granite Cityan also sparked on the base paths, hustling across the plate from a second base on Bob Skinner's high bounce in the sixth inning. In the field, however, the usually steady-gloved second baseman was charged with two errors.

Manager Red Schoendienst has apparently decided to keep Dan Javie as the regular second baseman. Now the new pilot must decide on two infielders to serve among Maxvill, Phil Gagliano and Jerry Buchek by the May 12 deadline.

The world champs have a 5-10 Grapefruit League record.

CHASED INDOORS by cold weather, Granite City baseball players take bating practice in five rows in the gymnasium. Rubber balls, of course, are used to prevent injury and broken windows.

## Weather Continues To Stymie Athletes

Officially, spring has been with us for 10 days but somebody forgot to tell old man winter to move over.

As a result of the cold and damp weather, local high school athletic squads are being forced to cancel and postpone inter-scholastic contests and curtail practice sessions.

Harshest hit so far is the Granite City baseball team which has had to cancel six games, including a double today at Roxana but the game was postponed Saturday. Coach Joe Fedura said he was unable to reschedule any of the games, all non-conference.

The Warriors are scheduled to visit Stanton this afternoon but that seems unlikely in view of this morning's low 40-degree temperatures. The first Southwestern Conference game is slated for 4 p.m. tomorrow at Wood River with Alton booked to come here Thursday afternoon.

"This is the worst spring I can remember," said Madison baseball coach Ed McClanahan, and few would disagree. His Trojans were scheduled to open today at Roxana but the game has been put off until April 20.

East St. Louis' diamondmen are to visit Madison at 4 p.m. Wednesday and the Trojans are

## GCHS Faculty Tops Lettermen by 52-41

Granite City high school faculty members defeated the lettermen 52-41 in their annual basketball game Friday night. The contest was attended by about 800 spectators, largest crowd in several years.

Leon Chappell led the teachers with 12 points. A highlight came when two avid fans, Emmett Davies and Lloyd Whitworth, were brought down to officiate the game. After several minutes they were breathing hard and decided it was easier to referee from the stands as they have for many seasons.

About 650 watched Thursday night's PTA-sponsored game at Coolidge junior high school as the faculty dropped a 58-72 decision to Kook All-Stars. The radio station team was paced by Norm Wilson who fired in 52 points.

## Ex-IHSA Official At Awards Banquet

Milton Sprunger, retired assistant executive secretary of the Illinois High School Association, will be the main speaker at the Granite City high school winter sports awards banquet at 6:15 p.m. Tuesday, April 6.

A main feature will be the honoring of the wrestling team which won the state co-championship. Sprunger was a leading official in Illinois wrestling while with the IHSA.

The Warriors' basketball team will also be honored at the banquet. Tickets at \$2.50 are on sale at the high school and from members of the Granite City Club.

Banquet arrangements are again being handled by former GCHS athletes Pat Rich, Dave Morgan, Cam VanBuskirk and Jon Tarpoif.

## Area Members Sought For Sports Council

Southern Illinois members are being sought for the newly-formed Illinois Sports Council, an organization which hopes to make this "the greatest sports state in the nation."

The council was formed late last year by Gov. Kerr as an independent body to increase participation in more sports by more Illinois citizens. The council hopes to expand membership to at least 10,000.

The council's 18-man board of governors and 48 directors, each representing a different sport, are meeting in Oak Brook to outline future plans. The meeting was attended by Gov. Kerr and Stan Musial.

Information may be obtained from Jerry Farmer, executive director, Illinois Sports Council, 1000 Oak Brook road, Oak Brook, Ill.

## Roger Manuel Quit Jayvee Post Feb. 8

Roger Manuel resigned as Granite City high school's junior varsity basketball coach on Feb. 8, he told the Press-Record today. The resignation was submitted to the high school office and was not a part of the discussion in which the school board decided to vacate the position held by Manuel and head basketball coach Andy Sullivan.

Manuel said he did not resign his teaching position and that his plans for the next school year are indefinite.

G. H. STERNBERG

My adult life has been spent in full service to my family and my community. My way of making a living has and will always take a backseat to community service. Community service means service to ALL of Granite City! I have not and will never be anti-anything except bad government and the evil forces in our community that seek to help themselves at the expense of a better Granite City.

Instead I have been pre-everything worthwhile, pro-Granite City, ALL Granite City, labor, management, Catholic, Protestant, Jew, business, industry, teacher, student, doctor, patient, lawyer, client . . . all Granite City!

In the past few years I have become convinced that service minded lay people can best serve their community in politics, since government is the only agency that represents ALL of the people.

Since the quality of our government and therefore our community depends on the performance of Mayor, we must elect as Mayor a person who truly wants to contribute to the welfare of the ENTIRE community.

Help me make that contribution to our community.

## Two Mayor Candidates Exchange Debate Views

The Granite City mayor campaign waxed hotter over the weekend with an exchange of letters between two candidates. G. H. An attempt to increase Madison county's general fund tax rate from the current 5.56 cents per \$100 valuation is to be made this evening at a dinner meeting in Springfield with area legislators and State Sen. Daniel Dougherty, chairman of the county problems commission.

The meeting was arranged by Harold Landolt, chairman of the county board of supervisors. County officers and members of the county board's legislation and finance committees were invited to attend.

The general fund tax rate was reduced from a 10-cent level several years ago as the result of a State Supreme Court decision on the Hodge-Butler act, and as a result the county, which is depleting reserve funds, is faced with deficit financing.

### Miss Peggy Dale Carmack and Robert Gray Short are Wed

White gladiolus, emerald arrangements and lighted candles in branched candelabra provided the setting Saturday evening at Third Baptist Church for the wedding of Miss Peggy Dale Carmack, and Robert Gray Short.

Candles also lighted the main aisle of the church.

The bride is a daughter of Mr. and Mrs. William H. Carmack, 2740 Grand avenue. Mr. Short's parents are Mr. and Mrs. John Popilchak, 4101 Kaseberg lane.

The Rev. Eugene Phillips officiated at the 7:30 o'clock ceremony.

Mrs. Jerry Lorenz presided at the organ and accompanied the soloist, Bill Rainwater, as he sang "One Alone." "My Wonderful One" and "Wedding Prayer."

Mrs. Lorenz also played the wedding march and recessional.

The bride was lovely in a gown of imported French silk.

A miniature bride and groom were little Lisa Tervasi and Kevin Worster. The former was a small copy of the bride with a bouquet of white and pink gladioli.

Mr. Short had Robert Schroeder as best man and Robert Staeh, Howard Mason, Gary McBride, Vance Lockridge, Stephen Jengel, Don Crabtree and Stephen French, as groomsmen and ushers.

For her daughter's wedding Mrs. Carmack wore a powder blue satin sheath with matching accessories, while the bridegroom's mother chose a beige brocade dress with matching accessories of the same. Both wore white orchid corsages.

Mr. and Mrs. Carmack gave a reception in the church recreation room directly after the ceremony. Friends of the bride who assisted were Miss Carolyn McRay, Miss Sherry Brown, Miss Karen Simmonoff, Miss Paula Hayes and Miss Paula Walton of Centralia, a cousin of the bride.

The newlyweds will be at home after April 15 at 2832 Iowa street. They left after the reception for a honeymoon of undisclosed destination.

The former Miss Carmack attended Southwestern Illinois University, Alton campus, following graduation from the Granite City high school, and recently has been employed in the accounting department of Union Starfish & Refining Co. Mr. Short, also a graduate of the local schools, is employed by Southwestern Bell Telephone Co., St. Louis.

## VOTE FOR And ELECT DONALD PARTNEY FOR MAYOR

### QUALIFIED? YES.

Don Partney is qualified to develop good and sound government.

### EXPERIENCE? YES.

Don Partney has been elected to his fifth consecutive term as Alderman for the fourth Ward. He HAS MISSED ONLY 5 MEETINGS OF THE COUNCIL and has taken a personal interest in every aspect of the City functions on a day-to-day basis. He is very familiar with the daily activities of every department of the City, and he has been chairman of the Planning and Zoning committee since 1959.

### PROGRESSIVE? YES.

Don Partney is a successful business man. He owns and operates the Granite Sheet Metal Works, Inc., located at 2740 Madison Avenue and 2600 Illinois Avenue. He is and has been a competent member of the City Council for eighteen years—he has devoted a great deal of time and energy bringing new industry to our community and has worked on the Transportation Committee for better highways in and around our City.

### Who Is Don Partney's Opposition for Mayor?

LET'S REVIEW THEM ALPHABETICALLY

- BETINEC, GABRIEL**—A very appealing and attractive woman—but Granite City today needs a man in the mayor's office—a man who has the ability to get the job done and let the publicity take care of itself—that man is Don Partney.
- CRUSE, VON DEE**—An ambitious young man who tried being a mailman, tried being a part salesman, tried being a time study man, now wants to try being a mayor—we need a man who can stick to a job and get it done—that man is Don Partney.
- NIGHOHOSIAN, CASPER**—An obviously well educated young man with a good future but still a college student—we need a man of experience—in city affairs, in business, and in human relations—that man is Don Partney.
- STERNBERG, GENE**—A local contractor who wants to continue as a contractor but also wants to give us part of his valuable time as our mayor. Our city is a million dollar business. It needs a dedicated, full-time mayor—the man who fills the bill is Don Partney.
- WHITMER, SAM**—A hard working, independent thinking alderman who has done a good job for his ward—but our city needs a man who can do a good job for the city—that man is Don Partney.

If you THINK our city needs a man who gives freely of his time and energy to the problems of our city and its activities, if you THINK we need a man who can unite instead of divide them, then you will want to VOTE FOR DON PARTNEY as the next MAYOR of Granite City, Tuesday, April 6th.

April 6, 1965

The Club Derby herewith is swinging into its fourth and final week before the first turn-in a week from tomorrow with just one casualty reported thus far — Bella Knapp, Nite Out chairman, broke her leg! Bella expects to be out of action for seven or eight weeks but some of the other indefatigable members of the Nite Outers promise to take up the slack.

We've had some calls from some of the chairmen about the first turn-in coinciding with election day in Granite City. This was an unfortunate scheduling and, if those of you working on the election, can't make it please call us and we'll arrange to take your turn-in the day before or the day after. Otherwise, we'll expect you at the Rose Bowl at 10 A.M. Tuesday, April 6.

Sales slips from Schermer's Men and Boys' Store worth points — five per dollar.

And it's so easy to earn a huge 20,000 points — just buy a new Buick from MacKinn in Collinsville!

Al, Bill and Joe at Saver's Supermarket in Madison are a great bunch and they are justifiably proud of their excellent meat department. Gournments tell me that the beef at Saver's is precisely the same as that served in the most expensive St. Louis restaurant. This outstanding market and, remember, with a Derby coupon you may buy two loaves of Wonder Bread for 24c and earn ten bonus points for your club!

A great idea on these long, short days, would be to organize a shopping tour. Get 25 members together and in one day run around at least ten of the sponsors and use the coupon. This would bring about 2,500 points to the club and, we would guess, be enough to win the first turn-in prize of \$200.

Ann Pare suggested that Elizabeth Altar Society members each buy the Anchor Hocking decorator vase from Harwitz Jewelers. Only 18c and good for 20 bonus points — a great idea for the rest of us.

Friedman Furniture and Hardware will help you garner those points in a hurry. 25 points for each charge account opened, another 25 for using the decorator slides and projector for a club meeting and 20 bonus points for using the bonus coupon good for a 24c package of scouring pads for only 15c. Besides 10 regular points for every dollar's worth on sales slips.

This is a fantastic program when one thinks about it and a tremendous opportunity for an organization to add a huge sum to the treasury. It is possible, in our 1965 Club Derby program for a Quad-City organization to earn \$1,100 in prize money, a 1966 Buick Station Wagon — plus more money from accumulating the special Club Derby stamps. Well worth the \$25.00 entry fee!

Bear in mind that any member of the WGNU staff will be more than happy to come to one of your meetings and explain things, if necessary, to your membership — also, perhaps, make some suggestions to help you pull up more and more of those very valuable Club Derby points.

Everyone was thrilled at the Grand Opening of the beautiful Leaning Dress Department Fringe and we know that many of you will want a Leader charge account (this way you can buy those new things with no money) — Each charge opened worth 25 bonus points.

Look at the fine line of air conditioners and TV sets at Townsend's on Nameoki Road... you can earn points by the thousands by buying one of these.

And once you buy one if it ever needs repairs see Mathes on State Street — more points!!!

Welcome to a new Derby entry — New Hope Chapter 432, Order of Eastern Star, Dorothy Edwards, W. M.

This is so easy with a bit of organization — If 10 women from any organization in the Derby promptly bought Bryn Mawr pastries from Bellemeor Bakery, Merle Norman cosmetics, dined at the Rose Bowl, had their hair styled at Madison Beauty Mart and cleaned their cars at City Cleaners — do believe that organization would win the new Buick Station Wagon!

Listen to Ann Burton with more Club Derby news daily at 9:30 A.M. and 2:30 P.M. on WGNU . . . .

## State to Inspect McCambridge Project

State highway department officials will be in Madison and Granite City tomorrow morning to confer with city officials and city engineers on the proposed joint motor fuel tax improvement for the Edwardsville road north of the Edwardsville road curve in Madison and Martin street in Granite City. Work is to be started as soon as possible.

The new roadway is to provide access routes for residents of the northern area of Madison and also for Tri-City Park area residents of Granite City who are losing Omaha street with the \$140,000,000 expansion program at Granite City Steel.

The McCambridge-Edwardsville road junction is to be equipped with electric traffic lights. The state highway officials are to study engineering plans designed locally and compare them to the actual conditions in an on the site inspection.

MORE ABOUT  
**Levee Board**  
(Continued from page 1.)

type of work done, if a big job of the employees of the levee district were "of a political nature," I wouldn't say that it was political," Molla replied. "When you go in the door at the office every morning there are at least ten people there waiting jobs."

Molla said the levee board hired "a lot of off-and-on people," persons who did not stay on the job long. "If you are paid \$1.30 per hour paid on laboring jobs, Molla said the trustees received \$80 per month and the president \$150 a month, the same salary fixed in the 1907 legislative act creating the levee district."

Mudge asked Molla if he believed there was any truth to what "seems to be common reports that political leaders and committeemen receive jobs" on the levee board payroll.

"Personally, if I'm running for election, I would favor a Democratic ticket," Molla said. "If I am hired, too, when we hire anyone we turn them over to a foreman and he takes care of them. If I am one ducked out on his job, I don't know about it."

When asked Mudge why he ran for election to the levee board, Molla said: "I had political ambitions. I thought maybe later I could run for the legislature or some other job higher up the ladder."

Mudge asked Molla if it was his recommendation that salaries be raised. Molla replied that it was. He said that some of the men hired on jobs requiring union memberships are fairly well paid, but that the salary of \$1.30 per hour for laborers is ridiculously low. He said that "a few years ago, Tolar, Hennessy (Thomas E. Hennessy, a former board member who testified later in the hearing, said he set up a committee to do the hiring, and I think we straightened out the situation."

**No Set Purchasing Policy**  
As for purchasing, Molla said in response to a question by Mudge that "we had no set policy." But he added, many contracts were always let on bids. "On gasoline and other smaller items there was some bulk buying," he said.

In instances where bids were not called, Molla explained, the board called two or three dealers and obtained prices. He said he believed "the levee board was getting along all right now... but if a big rain comes along we are in trouble."

He said the levee district has been short of money since it installed a large sewer in the sewer in East St. Louis in 1936, at which time the district's bonding power was nearly exhausted. Molla was asked about the extent of the bonding power, but the query was answered by Sprague who, with John J. Hogan, East St. Louis attorney, represented the levee district at the hearing. Sprague told the committee the district has a bonding power of approximately \$13,000,000, all of which has been used, except about \$1,000,000.

"Now," Sprague explained, "we are required to have a referendum to issue general obligation bonds. If there were no bond issue, Madison county wouldn't vote for it, and if there was no bond issue, Madison county wouldn't vote for it," Sprague said he thought there is no chance of obtaining referendum approval.

Molla also expressed the opinion that a referendum on a bond issue wouldn't have a chance. Mudge made reference to the Hillside Drainage project recommended by the government, and for which the levee district would require about \$100,000 as its sponsoring share.

"Do you think," Mudge asked, "that people have enough confidence in the levee board to vote for funds for a hillside drainage project?"

"I don't think the levee board, or a school district or any other taxing agency that put up a bond issue would have it approved. There have been votes on bond issues, even for new schools, and all of them are turned down," he added.

**\$11,728,000 Bonds Outstanding**  
Sprague, at this point, explained the levee district has \$11,728,000 outstanding in general obligation bonds with a repayment schedule running over 30 years. He said there are \$600,000 in outstanding revenue bonds, with the only contemplated issue for that the levee district's sewer treatment program. "If Molla, if he is on a 30-year basis,"

"Senator Graham asked Molla if he believed the levee district had a bond issue, and Molla replied, 'No, you wouldn't get anything done.' Molla said, 'Actually,' he went on, 'the trustees for St. Clair county usually fall over backwards to do things for Madison county because of the difference in representation.'

**Levee Board**  
(Continued from page 1.)

"That's not the story," he said from some people here in Madison county," Senator Graham replied.

A general discussion of the district's sewer treatment program followed and Molla was dismissed. "I don't know," Molla said, "I am 55 minutes after he was called in. He was on the stand long enough to answer the question, at least ten people there waiting jobs."

**Staff's Sign Checks**  
Thomas Stafoff, mayor of Ponton Beach and recently appointed treasurer of the levee district, at \$15,000 annual salary, followed Molla to the stand. Asked by Mudge about his duties, Stafoff said he "signs the checks."

Mudge asked him how he got his job following reorganization of the newly-elected levee board last December.

I heard the job was going to be open," Stafoff related, "so I called Tolar and asked him about it. He said there were others applying for the job, but he would take it up with the board. Later I was told I had been appointed."

"Is your job just signing checks?" Stafoff then said something else that you do," Mudge asked.

"The job is that so far he merely signs the checks but that he had been working with the board only a few months and will probably have other duties. Mudge asked him if he handles the funds or books. "Do you have any money in the bank?" he asked.

"No, you mean personally?" Stafoff responded. On a question from Rep. Simmons, Stafoff said he directed a levee district police force of 19 full-time members, and that sometimes the force increased to as many as 25 persons.

Mudge asked Little why the levee district needed a police force.

"Isn't the property of the levee district located in cities and villages which have police departments and can't the sheriff's office offer protection in county areas?"

Little said that the levee district police patrol levee property on an around-the-clock basis and that while other police forces might be adequate for their own purposes, they do not offer full protection to levee district property. He added that the police force members sometimes supplement men working at the pumping stations.

At this point, Rep. Zagone told Chairman Graham that he thought the witnesses should be asked to offer recommendations and so go into a detailed search for information not bearing on the district's problems. Graham, in turn, explained that "we have to question adequately the witnesses as to reasons why changes should be made and what changes should be contemplated."

Little said that the force receive \$225 per month, a salary that he said was inadequate, and that his principal recommendation for any change would be an increase in salaries.

Graham asked how the members of the police force were trained. Little said that he picked them and referred their appointment to the levee board which had the final decision in hiring. Little, in response to a question from Graham, said there is no training program for levee district policemen "because we don't have the money."

**Engineer Johnston Testifies**  
David J. Johnston, East St. Louis, said he was consulting engineer on special project for the levee district for the past six years, was called to the stand at 11:28 a.m. and outlined for the committee what he described as a critical need for the hillside drainage project.

He described the flood of 1946 which covered much of the area with interior flood waters as resulting in 1947 in a meeting called by the U.S. Army Engineers to discuss plans for a hillside drainage project to take care of a storm water runoff from the area extending as far north as Litchfield.

**Army Suggests Levee Board**  
Army engineers held a hearing, Johnston related, in which it was suggested the levee district assume the sponsoring agency. But, he said, the levee district would require about \$300,000 for its share of the cost which involves the purchase of right-of-way and construction of certain bridges.

**Levee Board**  
(Continued from page 1.)

Senator Graham inquired if the levee district has in financial condition to handle such a project.

"Not without some special arrangement being made," Johnston replied.

"Is the statutory power available for the district to handle such a project?" Senator Graham asked. Johnston replied that it was more than 20 years old.

"How long have you been around East St. Louis?" Simmons asked. Campbell replied that it was more than 20 years.

"Don't you have, from your own experience, any knowledge of any difficulties concerning the levee district?" Simmons asked.

"Oh, there has been some high tide in the past," Campbell responded. Campbell was dismissed from the stand.

**Principal Witness—Tolar**  
Tolar was the principal witness of the afternoon session. He took the stand at 2:37 p.m. and identified himself as a chief inspector of the East Side Hillside Drainage project.

He gave the committee a more explicit description of the district's police force and denied that there ever had been 45 full-time members of the police force. He said he believed that some of the witnesses had been "abused" by the implication of questions concerning employment and pay.

Mudge asked Tolar if Nomm on the payroll of the levee district. Tolar said he was not and had been fired earlier. He said Tolar said the district now has 13 employees in its entire area, but that number might increase upward by about 20 persons during the spring months.

He recalled the defeat of a legislative act calling for a 5% bonding limitation in 1961 and said the levee district has been hard hit financially. He pointed out the federal government approved funds for hillside drainage at a cost of from \$15,000 to \$20,000.

"Have you ever used it," Graham asked. Tolar replied that the equipment had been used.

**Payroll and Elections**  
"Will your payroll show an increase in the number of employees just prior to elections?" Graham asked, adding that "we might as well clear the air about this now."

"It could be possible," Tolar replied, "but there could be reasons for that."

"Other reasons than an election?" Graham queried. Tolar said seasonal increases.

"Other reasons than an election?" Graham queried. Tolar said seasonal increases.

**Levee Board**  
(Continued from page 1.)

Senator Graham asked Campbell if he knew of any problems the levee district had, Campbell said he did not know of any.

"How long have you been around East St. Louis?" Simmons asked. Campbell replied that it was more than 20 years.

"Don't you have, from your own experience, any knowledge of any difficulties concerning the levee district?" Simmons asked.

"Oh, there has been some high tide in the past," Campbell responded. Campbell was dismissed from the stand.

**Principal Witness—Tolar**  
Tolar was the principal witness of the afternoon session. He took the stand at 2:37 p.m. and identified himself as a chief inspector of the East Side Hillside Drainage project.

He gave the committee a more explicit description of the district's police force and denied that there ever had been 45 full-time members of the police force. He said he believed that some of the witnesses had been "abused" by the implication of questions concerning employment and pay.

Mudge asked Tolar if Nomm on the payroll of the levee district. Tolar said he was not and had been fired earlier. He said Tolar said the district now has 13 employees in its entire area, but that number might increase upward by about 20 persons during the spring months.

### FORMER ALDERMAN VIEWS THE CANDIDATES

To the Editor:  
As it is time again to elect our city officials, I believe we should be interested in who is elected in all wards.  
We are well satisfied with our alderman, Casner Skushik. We will elect him again.  
At Ward 1 running in the Second Ward and I had the pleasure of working with him several years ago. He has made a special study of the sewer, and that will be a big question in the near future.  
He is also much interested in air pollution and other things that are a detriment to both health and property. He will fight for the elimination of the household tax.  
I am not trying to tell the people of the Second Ward how to vote, but at least a good man for all of Granite City.

### OPPOSE REPLACEMENT OF PARK EMPLOYEE

To the Editor:  
It comes as great shock to many parents of the park district to learn that John Birdsong, the young gentleman in charge of the preschool program, boys and girls clubs and various activities sponsored by the park and held at the Community Center, will be replaced effective April 30.  
This young man has not only been honored by being asked to speak at Southern Illinois University in Carbondale, but was nominated for "Man of the Year" and even more recently was given a plaque from the parents in appreciation of the excellent and most commendable job he has done with children.  
Mr. Birdsong not only teaches preschool children manners and many other important facts that help them to become better equipped for school, but he teaches the children's parliamentary procedure, manners and, most important of all, the importance of being good, sensible and responsible citizens of our community.  
Certainly, almost anyone can supervise games, but it takes a particular type of person to be able to not only teach our children these important things, but to demand and hold the respect of both children and parents. As does John Birdsong.  
The park board had better take a long, hard look at all of these facts, and realize that this young man is an asset to our park and community.  
We, as taxpayers, urge all parents to get behind Mr. Birdsong for a man such as this to be able to replace.

### PROGRESSIVE G.P. PARK SUPERINTENDENT, BOARD

To the Editor:  
As spring is beginning to pour around us, our thoughts are turning to softball, swimming, tennis, in the park, and dancing on the pavilion, outdoor movies, trips to the opera—all of which have been enjoyed or expanded by Harold Brown, park superintendent.  
Mr. Brown operated the park district, not on a spring and summer basis, but throughout the entire year.  
The fall and winter activities he has range from afternoon sessions for preschool youngsters through basketball for the preschoolers' older sisters and brothers to slimmer classes for their mothers.  
The Granite City park district has been fortunate to have Mr. Brown's services for six years, and they have been six very productive years.  
Other cities of comparable size in Illinois don't begin to measure up to the park district, and I am sure there are many who feel as I do—that we should be grateful to our park superintendent for employing such an able superintendent.

## Fraundorf Asks State For Special Tax Funds

Sheriff Barney Fraundorf is seeking state legislation to provide sufficient funds for adequate police protection in Madison county.

He complained to the five state legislators from the county that police protection here is a mockery and asked them to support a bill that would provide a special tax to finance sufficient police protection.

"As you know at the present time if the problem was set before the people I am sure that they would vote down any tax raise even to help themselves," he said.

Fraundorf argued that current state statutes permit the county board of supervisors to allow an amount not exceeding \$15 per day for each man to patrol highways in a 737 square-mile area containing nearly a quarter of a million persons.

The provisions allow him to hire 12 men to patrol the highways three shifts a day and seven days a week, he said, adding that there are no funds for paid vacations.

Copies of the letter were sent to State Sen. Paul Simon of Troy and State Reps. Lloyd "Curly" Harris of Granite City and Leland J. Kennedy, Dan O'Neill and Ralph T. Smith of Alton.

## 500 Acres of Horseshoe Lake

## Waste Water System for Steel Mill Now in Operation

Granite City Steel Company's waste water disposal system is in operation at Horseshoe Lake and already handling most of the company's heavy flow of cleaning and cooling water. It was announced today.

The system is designed to purify Granite City Steel's cooling and cleaning water to standards of the State Sanitary Water Board. The levees, settling basins, skimming ponds and other facilities occupy 300 acres of farm and lake property in the Horseshoe Lake area east of the company's plant.

The new system is presently treating about 70% of the company's cooling and cleaning water. The separation of Granite City Steel's plant waste water from the city sewers will be completed within two months with the relocation of a sewer in Madison avenue parallel to the company's plant. Water from the hot strip mill department which is still flowing into the city's sewers will then be carried into the Granite City Steel system.

Granite City Steel is one of the largest water users in the area. The company operates its own river water pumping system with an intake station in the Chain of Rocks canal.

**Lake Drainage Since 1920s**  
Waste water from the company's blast furnace plant has drained into Horseshoe Lake since first blast furnaces were built in that location in the early 1920s. The remainder of the company's cooling and cleaning water has drained into the city's sewer system.

Granite City Steel began to plan a separate treatment system several years ago when the Sanitary Water Board ordered the city of Granite City and other communities along the Mississippi River to abate their river pollution. The city's sanitary sewage and the company's heavy flow of cleaning and cooling water require much different methods of treatment. It was more economical for both city and company to construct independent facilities.

**Lagoons Take 10% of Lake**  
Granite City Steel bought land in the Horseshoe Lake area for the waste water disposal system. The site includes slightly over 500 acres or about 10% of the lake. The company also had to negotiate many right-of-way agreements with railroads and

private parties to gain access to the land. Construction began a year ago.

The treatment system consists of two main lagoons or stabilization ponds, each preceded by a skimming pond for the removal of oil and floating matter and one also preceded by an isolation pond for emergency use so contaminated water does not reach the stabilization ponds. The system also includes gates, dams and other facilities for controlling the flow of water and sewer lines from various plant locations. The main trunk sewer is 7 1/2 feet in diameter.

Building the levees which en-

close the lagoons and ponds required 505,000 cubic yards of open hearth furnace slag and about 115,000 cubic yards of excavation and fill. (A large dump truck holds six or seven cubic yards.)

Waste water from the blast furnace plant is held in its lagoon for about 10 days for chemical contamination to disappear. Waste water from the rest of the plant (about four times as much in volume as the water from the blast furnace area) needs to be held in its lagoon for only about 3 1/2 days to meet purification standards.

The water discharged from

the plant system into Horseshoe Lake helps maintain the level of the lake during dry seasons as well as meeting treatment standards of the Sanitary Water Board, a company spokesman said.

### Sr. Citizens Complete Bus Scheduling Plans

Senior Citizens of the YSCA met at the "Y" Friday with Mrs. Kathryn Gray, a local school bus driver. Plans were worked out for the members to use their new bus to get to and from the "Y" each Friday for their meetings.

Beginning April 2 the bus will leave the "Y" at 9:45 a.m. and go directly to the Madison city hall, where it will pick up Madison senior citizens and take them to the "Y." A longer route for Madison is being developed.

At 10:15, the bus will leave the "Y" for stops at 23rd and State, 23rd and Iowa, the airport at Anchorage, the recreation hall office at Kirkpatrick Homes, Ebbe's Confectionery on 24th, the Sacred Heart Church, Sedlak's Funeral Home, VanBakirk Grocery, 23rd and Cleveland, 2100 State and 1939 Benton. The return trip will be made about 2:30 p.m. and will follow the same route.

A list of all members is being prepared and copies will be distributed. A proposed constitution also is being distributed.

A suggestion for a cookbook containing treasured recipes submitted by members, together with quilt and embroidery patterns, was made by Mrs. Anne Jones, who was appointed chairman to help organize the project.

## Change GOLD to Cozy

**When you add a new room, add electric heat.**

Don't gamble that your present heating system will warm that new room you are adding, or that porch or breezeway you are enclosing.

Nine times out of ten, it won't. Here's an idea your architect and builder will applaud. Use electricity for that extra heat you will need in your addition. It's easy to install, requires no duct work.

There are so many types of auxiliary electric heat available you will have no trouble finding the type that's just right for you. You can have heat radiating from walls, floors, ceilings or baseboards.

And what a new world of comfort you'll discover! Auxiliary electric heat gives you gentle, radiant warmth at the flip of a switch. And electric heat is as silent as a light bulb. Just as clean, too.

For professional assistance in selecting your new supplementary electric heating, use the coupon at right.

Granite City PRESS-RECORD  
Mon., Mar. 29, 1965 Page 23

## Supervisor Questions

Questions directed to candidates for supervisor of Chouteau Township. They are:

1. Do you favor reapportionment to provide equal county board representation on the basis of the "one man, one vote" court ruling?
2. Do you favor the use of voting machines rather than paper ballots?
3. Do you favor the use of centralized county tax collection?

Joseph A. Trocickler

A veterans township supervisor, Joseph A. Trocickler, 71, of 632 East Chain of Rocks road, previously served in school district positions. (A photo was not submitted.)

He was a director of District 109 about eight years ago, resigning to become school treasurer, a position he held for four years. He has no other employment and devotes full time to his work as township supervisor and supervisor of relief.

His educational background reaches the ninth grade, at the Mitchell school. He is a member of St. Elizabeth's Catholic Church, Modern Woodman of America, Barracks 34, World War I charter member of Veterans of Foreign Wars Post 1300 and Amvets Post 51 and is an honorary member of the Mitchell volunteer fire department. He has a wife and four children, including three who are married and one who is a teaching nurse.

Trocickler states that "I have always been a firm believer in holding down taxes and I will continue to do so if I am elected as supervisor. I will continue to give my full time to the duties as supervisor."

His answers to questions directed to supervisor candidates are:

1. "No."
2. "I voted no against zoning as I voted the convictions of my people, but I think revision by the Board of Appeals has done a lot of good."
3. "No."
